CareerLeader: Not just for Careers!

CareerLeader will not only help you identify suitable career paths, but also help you...

In RSM100 and Your Team Projects

CareerLeader can help you reflect on:

- The types of work and tasks you enjoy most
- Skills you feel confident using
- Roles you may naturally gravitate toward in a team
- How your strengths can contribute to group projects

As you begin working in teams this term, these insights may help you better understand how you can contribute and collaborate effectively.

As You Explore Your Future at Rotman Commerce

CareerLeader can also help you:

- Explore business career paths that align with your interests and motivators
- Connect potential career directions to Rotman Commerce specialist streams
- Make more informed decisions about courses, activities, and opportunities in the program
- Build greater confidence in your academic and career planning

Think of CareerLeader as a starting point for understanding yourself, not a test that tells you what to do.
