Introduction to Management

Course Kick-off

Welcome To The #1 University in Canada!

Agenda

Introductions

About the Course

Success in The Course

Success in University

Overview of the Course

Transition to University

Introduction to Commerce

Introductions

Who am I?

Michael Khan

Academic Background

- B.Comm. – University of Toronto (Co-op)
- MBA – Schulich
- CPA, CA
- CISA
- CGEIT
- CITP

Professional Background

- EY (Ernst & Young)
- Deloitte
- Independent Consultant

A wide-angle, low-perspective shot of a two-lane asphalt road that stretches straight into the distance. The road is flanked by dry, scrubby vegetation. In the background, a range of mountains is visible under a hazy, overcast sky. The word "START" is painted in large, white, sans-serif capital letters across the road's surface in the foreground.

**Let's Get
Started!**

START

Who Are You?

- Meet the students on either side of you:
 - Discuss something interesting and unique about them
 - Something unique that no one else in the class likely has in common
 - Some of you will be chosen at random to introduce yourself to the class discussing your interesting/fun fact

About the Course

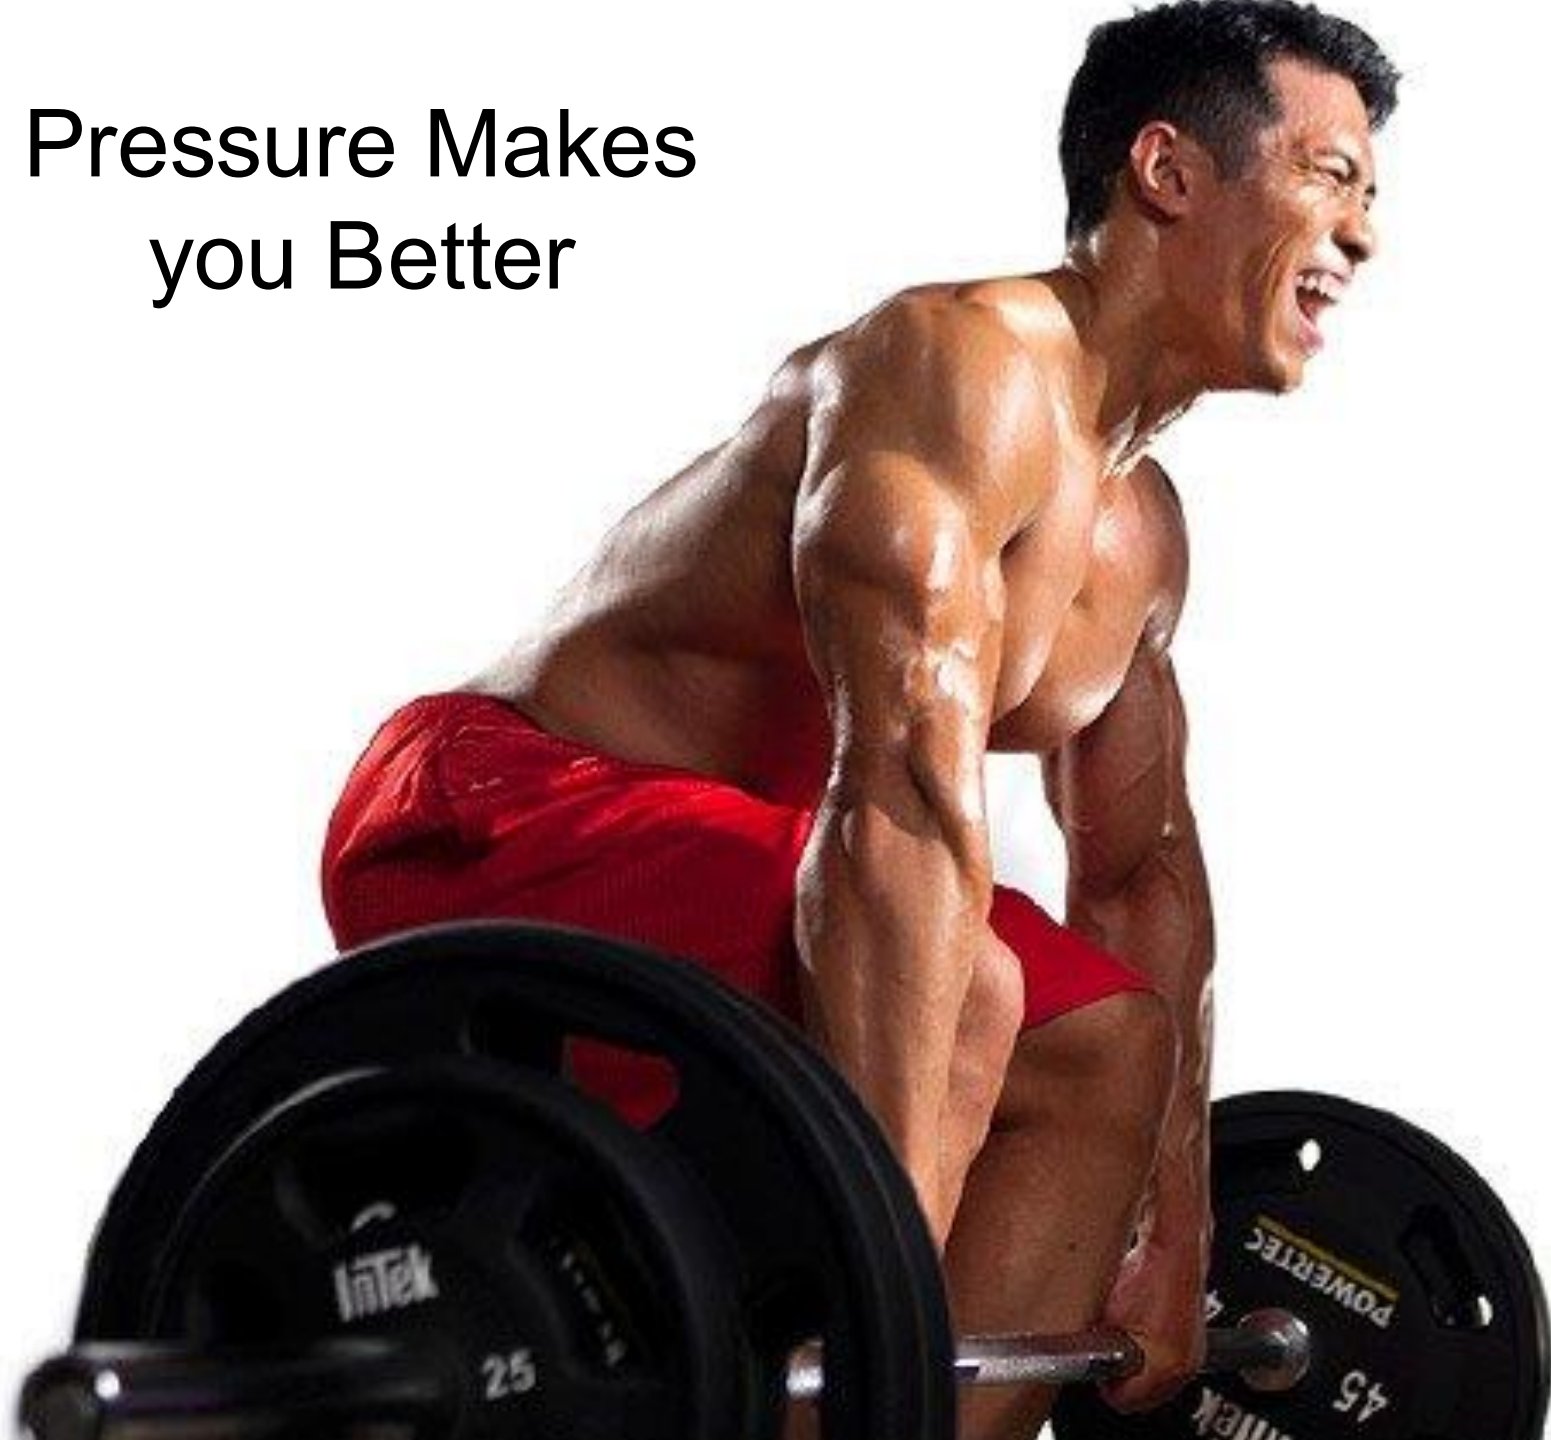

“Pressure is a
Privilege”

Billy Jean King

Pressure Makes
you Better

Pressure Helps You
Stay Honest

Pressure Helps You Engage With Life
More Meaningfully

Success in The Course

Success in this Course

- Prepare in advance!
 - Read and attempt material BEFORE class
 - This will help with participation also
- Keep up-to-date
 - There is a lot of content and the course moves very quickly
- Expect to spend approximately 5-10 hours a week on this class

Attend class – be alert & engaged, take useful notes

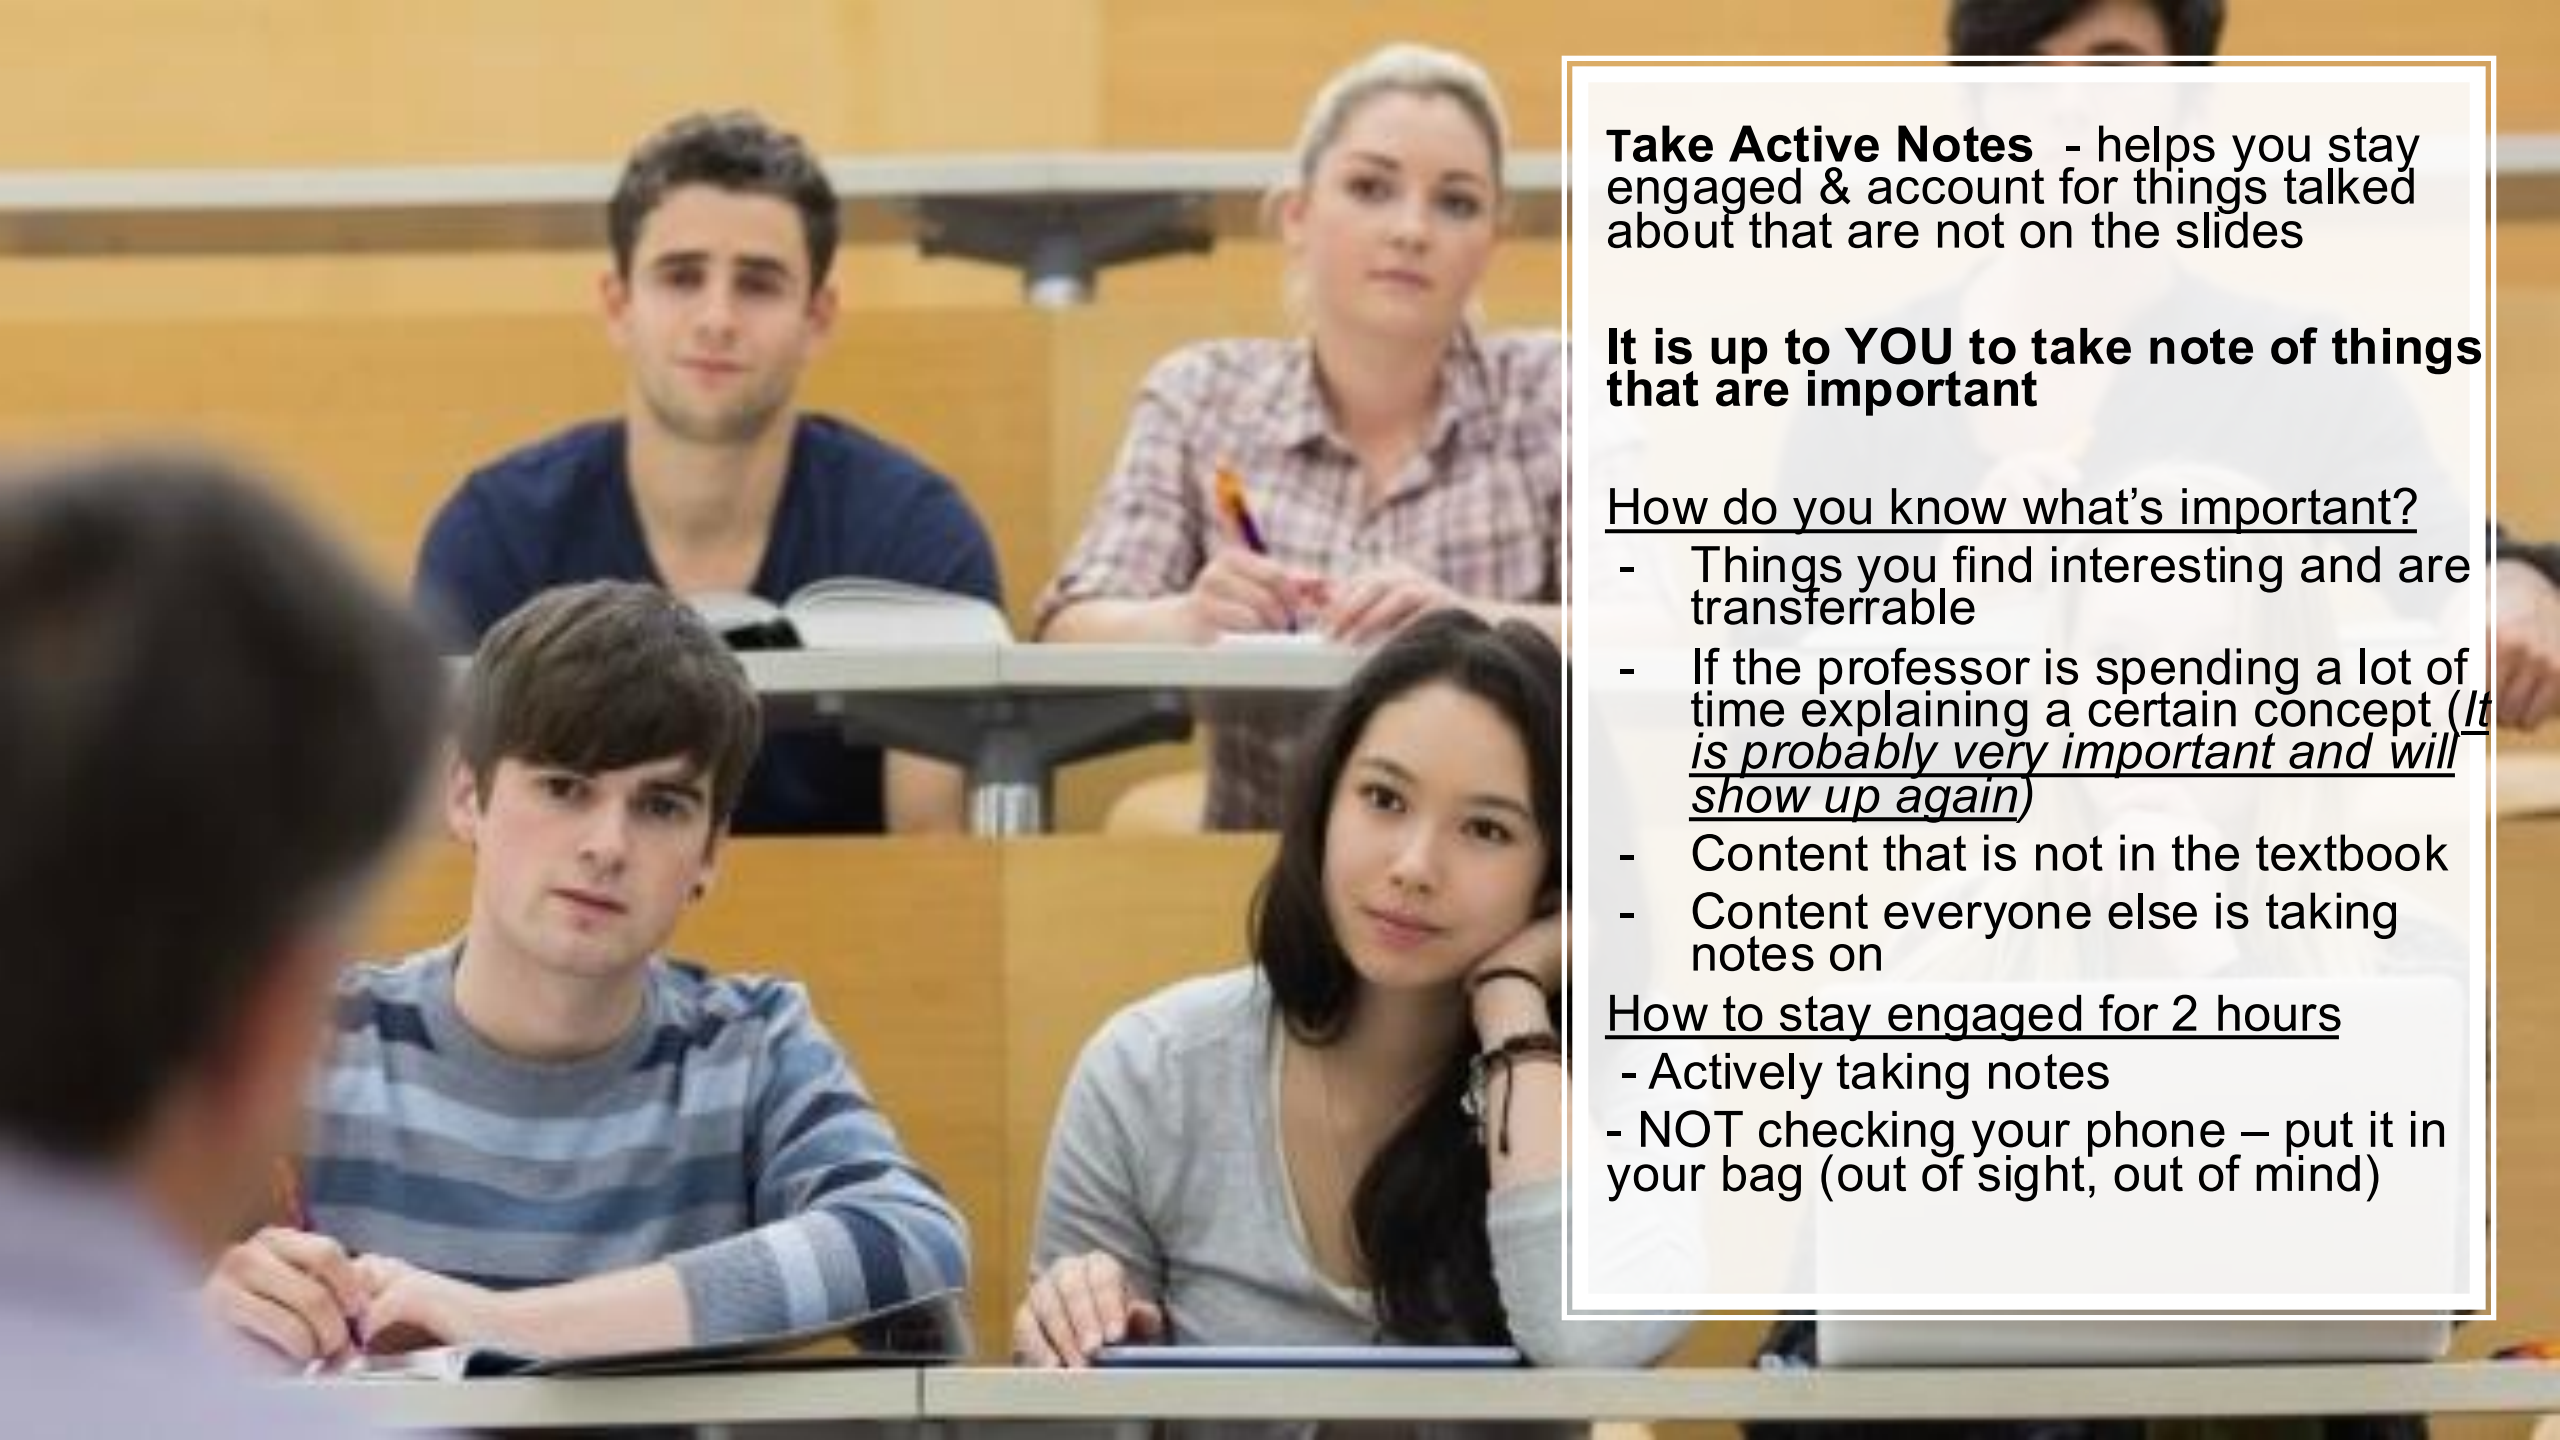

Quick **lecture note review** after they are posted on Quercus

Absorb additional information – make this course the starting point of an overall ‘learning lifestyle’ about management & business

Lectures will often include “*What’s new in the world of business*”

Think about how you communicate information – if your **written communication skills** require improvement, seek it out

A background image of a lecture hall with several students seated at desks. In the foreground, a young man in a blue and white striped shirt is looking towards the camera. Behind him, a young woman with dark hair is resting her head on her hand. In the background, another young man in a dark blue shirt and a young woman in a plaid shirt are visible, both looking forward. The text is overlaid on the right side of the image.

Take Active Notes - helps you stay engaged & account for things talked about that are not on the slides

It is up to YOU to take note of things that are important

How do you know what's important?

- Things you find interesting and are transferrable
- If the professor is spending a lot of time explaining a certain concept (*It is probably very important and will show up again*)
- Content that is not in the textbook
- Content everyone else is taking notes on

How to stay engaged for 2 hours

- Actively taking notes
- NOT checking your phone – put it in your bag (out of sight, out of mind)

My 3 P's of Success

Planning
Preparation
Perseverance

Housekeeping: Schedule key course events in your planners. *Resolve conflicts, such as with test dates, now.*

Create a Well-Balanced Schedule

- Create time slots for when you want to get things done
- Your university experience should also include things that don't involve schoolwork!
- Make time for extra-curriculars and your passions!

WEEKLY SCHEDULE

first year, first semester

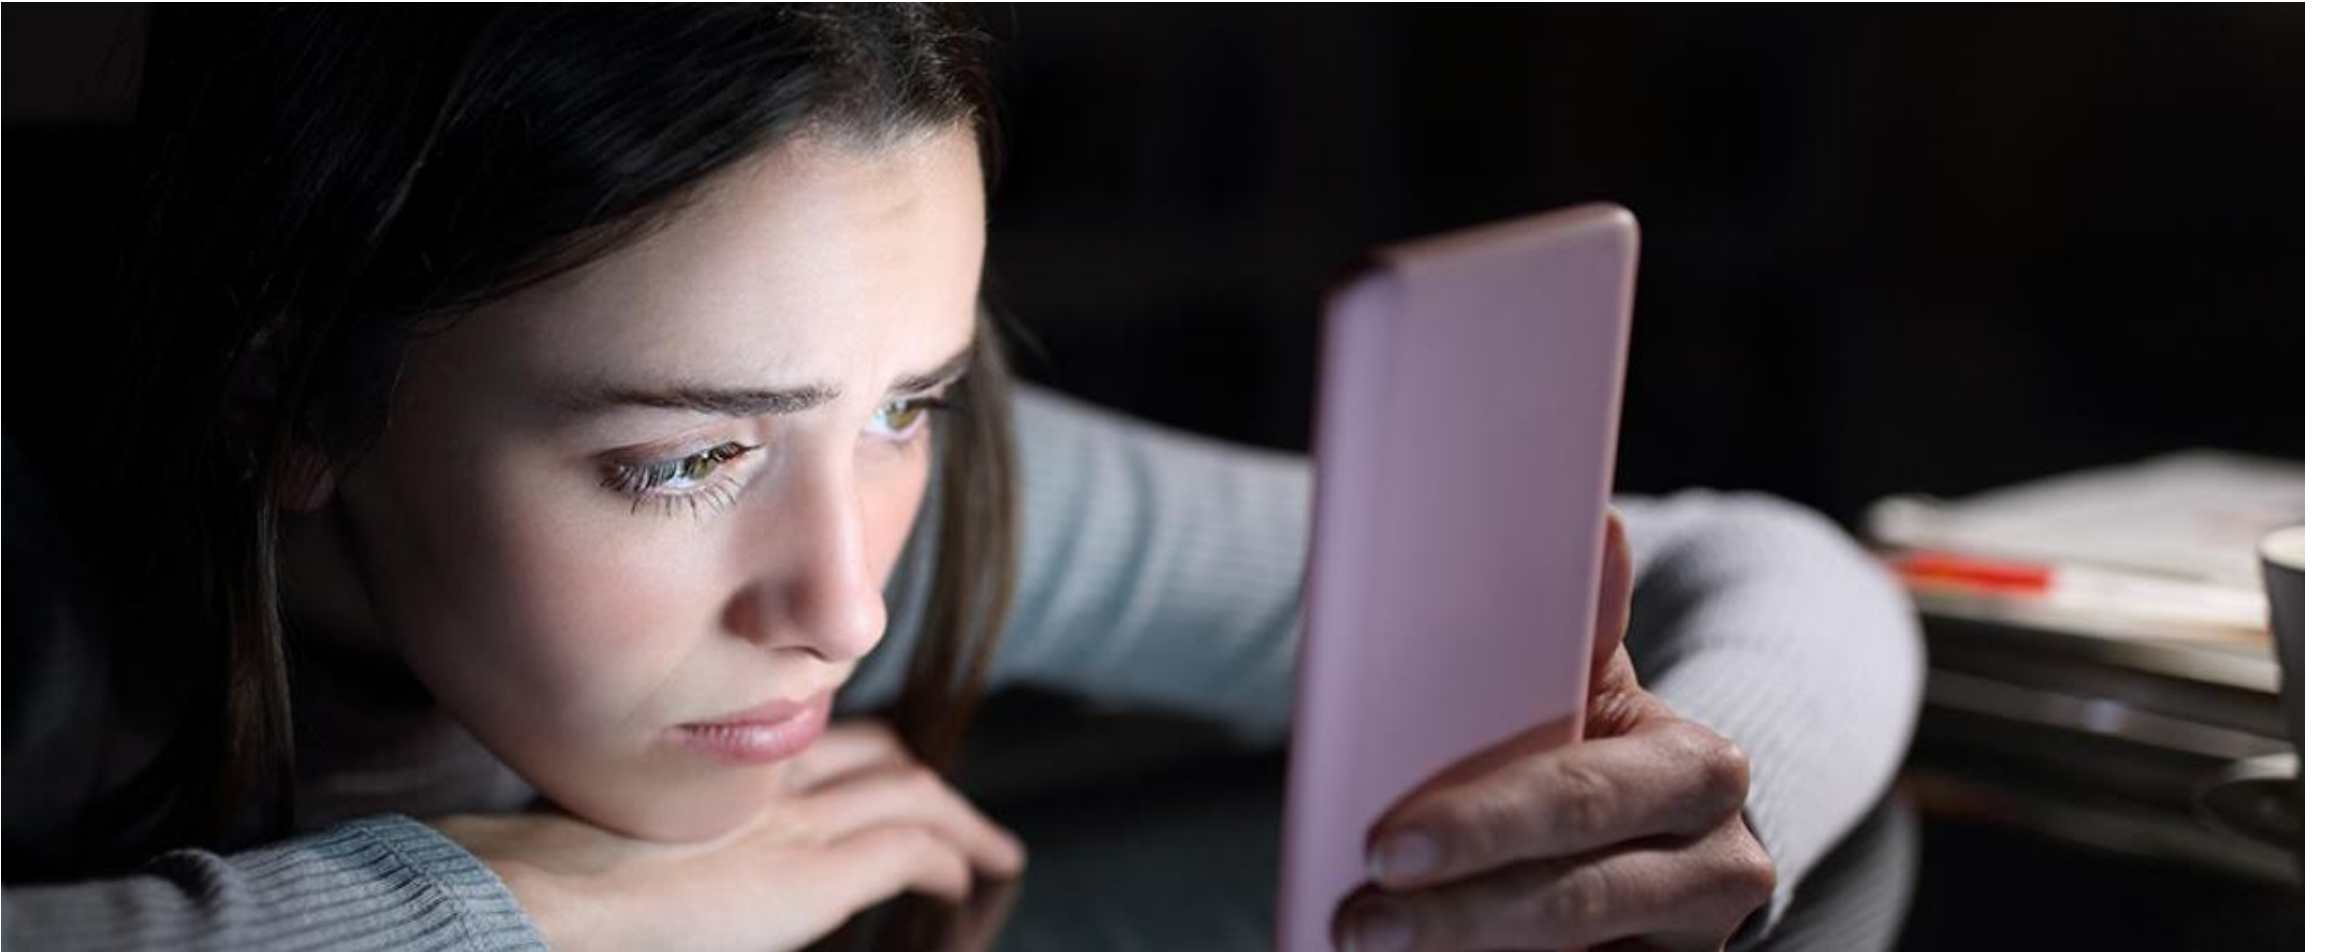

FOR THE WEEK OF: _____

MONDAY	• RSM100 CHAPTER 2 READING (10 - 11:30AM) • GO TO RSM219 (12 - 2PM) • ECO101 PROBLEM SET (3PM - 5PM) • GO FOR A BIKE RIDE (6PM)
TUESDAY	• RSM219 CHAPTER 3 READING (10 - 12PM) • GO TO RSM100 (1-3PM) • RSM219 HOMEWORK (4PM -6PM) • WATCH NEW MARVEL TV SHOW
WEDNESDAY	• GO TO MAT133 (9-10AM) • GO TO ECO101 (11-1PM) • MAT133 PROBLEM SET (2PM-4PM) • ECO101 CHAPTER 2 READING (4:30-6:30PM)
THURSDAY	• GO TO MAT133 (9-10AM) • GO TO ECO101 TUTORIAL (11-12PM) • STUDY FOR ECO101 QUIZ (1-3PM) • GO TO KENSINGTON MARKET
FRIDAY	• GO TO MAT133 (9-10AM) • GO TO SOC100 (12-2PM) • TAKE ECO101 QUIZ (3-4PM) • HANG OUT WITH FRIENDS
WEEKEND	• RSM100 CHAPTER 3 READING (10 - 12PM) • MAT133 PROBELM SET (1-3PM) • RSM219 CHAPTER 5 READING

Success in University

Some of your Enemies: SOCIAL MEDIA

Some of your Enemies: SOCIAL MEDIA

WORK 10X FASTER

Protect Your Attention

Why focus is your last real advantage in the age of AI

47 seconds

the average human attention span today —
down from 2.5 minutes in 2004

YOU ARE NOT IMAGINING IT

Your Brain Has Been Rewired

47 sec

average attention span today,
down from 2.5 minutes in 2004

49%

of interruptions are self-
inflicted — not notifications,
you

186x

the average person checks their
phone every single day

23 min

the "switching tax" it takes to
fully refocus after one
interruption

THE STUDY

Your Phone Doesn't Have to Buzz to Hurt You

Researchers gave people the same simple thinking task. The only difference: where their phone was. All phones were off.

01

On the desk

Worst performance

02

In the pocket

Middle performance

03

In another room

Best performance

The takeaway: just having your phone visible drains cognitive capacity — even silent, even off.

The 3 R's — Redesign the System

Willpower fails. Environment design doesn't. Stop fighting your phone — remove it from the fight.

Reach

Keep distraction physically out of reach. Phone in another room, not face-down on the desk.

Roadblock

Make distraction expensive. Delete the app instead of muting it. Every layer of friction is a win.

Rituals

Pre-decide your next action. Vague goals fail 62% of the time. Rituals fail only 9% of the time.

SOS — Train Your Focus Like a Muscle

You cannot bench your max weight on day one. Start small, recover fully, lock it in.

Sprint

Start with 15–20 minutes of focus, not 90. Even 7 minutes is a real starting point.

Offload

Go fully dark after a sprint. No phone. A short walk measurably recharges cognitive capacity.

Save

10 seconds of stillness mid-sprint helps you encode what you learned up to 20x faster.

THE STAKES

AI Will Do the Shallow Work. Only You Can Do the Deep Work.

Flow — the state where your best work happens — takes 15–20 minutes just to enter. Check your phone every few minutes and you will never once reach it this semester.

15–20 min

minimum time just to enter a flow state —
impossible in 47-second bursts

The students who protect their attention this term will out-learn everyone else in this room — not because they're smarter, but because they're the only ones actually present.

“

*In a world of 47-second minds,
the person who can hold their focus
owns the future.*

Participation and Networking

Add an Avatar/Profile Picture on Quercus

This will help me identify you better especially for participation purposes

Ensure it is an actual picture of you (not a cartoon/emoji)

Networking

“Dear Prof Khan,

Tomorrow I start my new job at KPMG and amongst all the nerves and excitement I wanted to take a moment to thank you for your support. Thank you for putting your faith in me back in March and providing a recommendation for me. I have been accepted into the CPA program with advanced standing, joined the KPMG Avenues program (which allows you to get work experience in other industry groups) and am ready to work hard and make you, and everyone else who has supported me, proud.

Regards,”

Michael De Melo

Accounting Specialist, Economics Major

Teaching Assistant: MGT120 – Financial Accounting I and MGT223 – Managerial Accounting I

“I had always thought of networking as a deliberate pursuit, something that one would do at job fair or a coffee chat. Going to class, sitting in the front row and getting to know the people around me were things I did because I wanted to learn and to be a part of my community.

At the end of the day, what led me to the amazing opportunity to work at BDO, doing work that interests me with an amazing team, wasn’t traditional networking. It was consistently showing up and putting in a real effort to get to know the people around me and to learn from them.

None of this is to say that traditional networking doesn’t work, it can! What I’m emphasizing though, is that every day is an opportunity to grow your network, and it can be the little things that count. I left Professor Khan’s class with more than an understanding of IT auditing and SOC reports; I left with a job, many new friends, and some mentors who have taught me a lot in a very short time.

I will be forever grateful to Professor Khan for his mentorship, and for showing me that sometimes, the best way to grow your network is to show up, participate wholeheartedly and put your best foot forward.”

Gurleen Dhillon

Accounting Specialist, Economics Major, French Minor
Teaching Assistant – MGT422 – Advanced IT Audit and Data Analytics

“I wanted to take a moment to express my sincere gratitude for the lessons you taught me about the importance of making good connections and networking. I remember bothering you at 8 AM every morning before class, and our conversations about seemingly nothing ended up being invaluable to my career.

Through our conversations, I was able to learn so much about the importance of how making connections with people can open doors that I never even knew existed. I never imagined that our discussions and my participation in class would lead me down the path of finding a job at one of the leading global accounting firms!

I am truly grateful for your mentorship, and I know that your guidance will continue to benefit me throughout my professional journey.

Thank you for teaching me the importance of networking, and for being such an inspiring and supportive professor.”

Michael Licursi

Accounting Specialist, CPA, CISA, CISSP, CDPSE

Teaching Assistant: MGT100/RSM100 – and MGT422 – Advanced IT Audit and Data Analytics

“When I was in undergrad, as a natural introvert I was initially reluctant to do networking and always found it to be intimidating.

I was looking at it purely through the lens of ‘networking events’ which felt to me contrary to my nature, I personally prefer taking my time with building connections and a rushed, cramped feeling always took hold of me at those events. Little did I know that building long term connections through any means is in and of itself networking and building connections. Once I realized this, I began to appreciate its value and use it to maximize opportunities available to me.

One person I owe that realization to is Michael Khan. The amount of knowledge he imparted to me over the years, the sheer volume of opportunities he gave me to grow and demonstrate my abilities, and the trust he has put in me have all been massive contributors to my personal and professional success. Building this connection took years, but it grew in a way that felt organic to me.

The advice I would give to students is to play to their strengths, and to seek opportunities to go along with (and not force themselves to go against) their natural rhythms. If you do that, not only will you be authentic but action and success will come but will be inspired action, not forced action.

Martin Eichler

THE *Coca-Cola* COMPANY

BComm Finance Specialist, MBA Strategy & Leadership Emphasis
Sr. Director of Commercialization Strategy

- Moved to Canada from Europe for my BComm at Rotman Commerce, and remained in my comfort zone sticking mostly to myself in the first year.
- Recognized that I need to stand out among my peers to get unique career-amplifying opportunities as everyone at Rotman has high intelligence and has impressive CVs. I realized that those alone will not get me to where I want to go.
- Started to get out of my shell in my second year, went to Summer Abroad and started making connections with fellow students and Prof. Michael Khan.
- Leveraged the connection with Prof. Khan to become his Research Assistant Team Lead and later his Lead TA for RSM/MGT100.
- Close to the end of my 4th year, I met the Sr. VP of Supply Chain of Coca-Cola Canada, holding a guest lecture in RSM100. As Lead TA, I helped the guest speaker coordinate the logistics for the day and built a new connection. After the guest lectures, I let him know I am looking for an internship or entry level role and that I am interested in Coca-Cola. He offered me to recommend my CV to his HR team to see whether there might be a role for me.
- That helped me secure a Sales internship at Coca-Cola, which turned into a full time Sales Analyst job.
- 9 years later, I am the Sr. Director of Commercialization Strategy, leading a team of 7 Directors responsible for our North America Water, Tea & Coffee portfolio at our Global Head Office in Atlanta. Each promotion throughout my career was enabled by the network I built, in most cases ahead of applying to new roles. The people I wanted to work for already knew me and my professional contributions.

*"My advice is to **build a network before you need a job or help**. Already having the relationship when you do, makes asking for support less transactional. **Get ahead of it!"***

Simon Mathias

MGT100 Student

University of Toronto student
Solutions Specialist Intern, Predictive Success

What taking action & networking made possible

1

As a **first-year MGT100 student**, Simon stayed after a guest lecture to ask the speaker for advice, then went home, built him a custom software tool, and cold emailed it.

2

That one step led to a **summer internship** offer from CEO Dave Lahey.

3

It opened doors to conversations with leaders including **Dan Martell** and **Martin St. Louis (Montreal Canadiens head coach)**.

4

It created opportunities like an all-expense-paid trip to **San Francisco** for *Y Combinator Startup School*.

Take Action! Shoot your shot 😊

FIRST IMPRESSIONS & NETWORKING

Sean Mullin

- Recruiter for CPA Ontario

How Successful Leaders Start Their Mornings

Fitness as a non-negotiable part of the daily routine

Tim Cook

Former CEO, Apple

Gym by 5:00 AM — before the workday starts.

Richard Branson

Founder, Virgin Group

5:00 AM: cycling, tennis, or kitesurfing.

Jeff Bezos

Founder, Amazon

Works with a trainer: ~30 min cardio + 45 min resistance training, treated as non-negotiable.

Bob Iger

Former CEO, Disney

4:30 AM: reads, then exercises.

Indra Nooyi

Former CEO, PepsiCo

30-45 min walk/stretch, even on 14-hr days.

Sundar Pichai

CEO, Google

Daily exercise for sharper focus.

Anecdotal examples from public interviews — illustrative, not research evidence.

Be a Well-Rounded Individual, Get Involved and Build Skills

Participate

- 30+ student group
- House events
- Additional workshops, events, and activities held throughout the year

Don't know how to participate?

- Check out RC Ready (weekly newsletter from Rotman Commerce sent to you via email)

See Quercus for links to these resources

Overview of the Course

Why do I employ collaborative learning (CL) techniques in class?

Extensive research shows that CL results in:

- More absorption of knowledge
- More satisfaction with the class and material
- More interest in the material
- Development of soft skills (communication)
- A higher degree of academic growth
- Better relationships with peers and the instructor

The Flipped Classroom

OUT OF CLASS

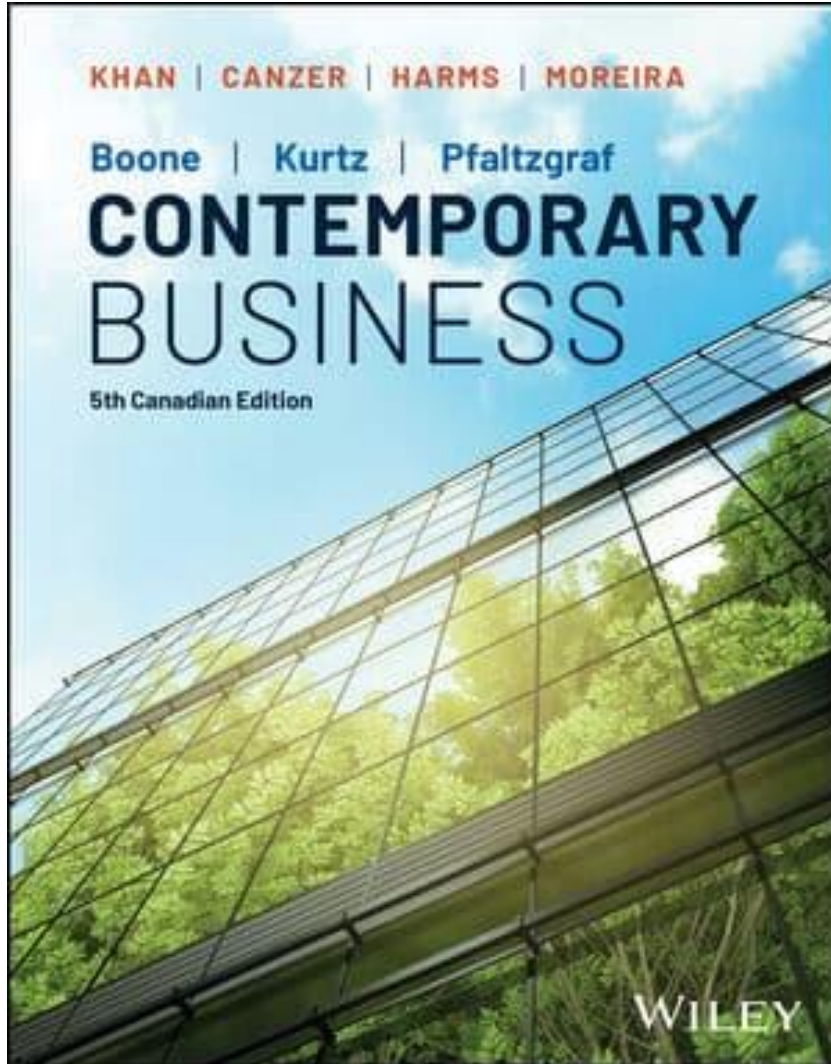

Applying Concepts in the Real World – Costco's Strategy

“During a case study in class, I learned that Costco’s strategy is built to maximize its membership revenue. We discussed different tactics Costco uses to keep its customers loyal. While doing my internship as a Marketing Specialist at the Oshawa Zoo, I applied many of those important tactics to significantly increase its membership sales.”

-Daniel Sojo, Former Student & Current Teaching Assistant

Course Resources: Textbook & Wiley Plus

- Sold through Bookstore

Used Textbooks

- *It is not recommended to buy prior editions of textbooks as you will need a new copy of the 5th Canadian Edition or up to date ebook to gain access to resources and Wiley Plus homework*
- Important to read carefully & thoroughly
- Begin **now** and get ahead in your reading
 - lots to cover over the next year
 - ***First Quiz: in 3 weeks***
 - ***First Term Test: next month***

Course Evaluation

Everything that we do in the course – assigned text readings, lectures, videos, in-class discussion, etc. - is “fair game” for the tests and exam

You will not be told what is “not on the test”

There will be content on the tests that is NOT in a reading or on a slide and purely based on classroom discussion so take GOOD NOTES

Tests and exams can be a combination of multiple choice questions along with written questions

Tests are **not to be feared**, but they require **thorough preparation** on everyone's part

➤ Final Exam (date will be announced by Arts and Sciences)

Tests/Quizzes

- Quiz (if applicable)
- Midterm Tests
- Final Exam
- Assessments could include multiple choice questions and/or short answer questions and will cover cumulative content to date from
 - Textbook
 - Lectures (including guest lectures & appendices)
 - Additional readings on quercus

Team Instruction Approach

Several instructors participate in teaching this course

- Advantages - exposure to broad expertise & experiences, range of teaching styles, excellent networking opportunity
- Note: these speakers are subject to change based on availability and other constraints beyond my control

“I have enjoyed the guest lecturers and hearing a variety of opinions.”

“Guest lecturers are great for building my networking skills”

Presenters & Contributors: Past and Present

Ron Monteiro

CPA, CMA

Founder, KICT Inc. Consulting & Training
Speaker, Coach, Facilitator, Clear Concept Inc.
Leadership Session

- Ron is a U of T graduate & business professional who has extensive senior level experience in Finance mainly in the CPG industry.
- His experience includes working for public companies such as Hitachi, Kraft, Campbell's & Kruger as well as a start-up telecommunications company and a private entrepreneurial beverage manufacturing company.
- He is passionate manager, mentor, teacher and coach and is looking to share his experience and insights with new industry professionals.
- Ron has recently started his own company (KICT Inc.) that is focused on helping unleash potential in individuals and teams. He also is a speaker and facilitator for Clear Concept Inc.

Linda Ferrandini, HBA

Strategy, Communications & People Leadership

- Senior strategy, marketing and communications leader with 20+ years of experience leading teams & complex organizational initiatives
- Former Director at CIBC, with previous leadership roles at KraftHeinz and Canadian Tire
- Now an independent consultant helping public-sector organizations, agencies and entrepreneurs clarify strategy, shape compelling narratives and communicate ideas that move their work forward
- Co-designer and facilitator of leadership-development programming for new people leaders
- Honours Business Administration, Ivey Business School at Western University; Certificate in Strategic Copywriting, University of Toronto

If you have a question about the course

1. Read the course outline
2. Ask a friend (part of networking)
3. Check announcements on Quercus
4. Ask appropriate support staff via email/office hours
 - Program questions directed to Rotman Commerce office
rotmancommerce.info@utoronto.ca
 - WileyPlus Related questions directed to Wiley Support
<https://wpsupport.wiley.com/s/contactsupport>
 - Academic Integrity Module directed to essyn.emurla@utoronto.ca
 - General issues: rsm100@utoronto.ca
5. Visit me or the TA in [office hours](#)

Note: Program related issues should be directed to Rotman Commerce or your Registrar

Hello! I'm an AI assistant for RSM100: Introduction to Management.

I have been trained to answer questions about anything you'd like to know about RSM100: Introduction to Management concepts, logistics, and topics. I'll be here all day, all night, and all term.

Helpful Tips

- Ask your question in the language you are most comfortable in and I will answer in that language.
- I do my best, but just like your friend who always gets an A, I'm not perfect.
- If something seems unclear, ask me again in another way and I'll try to explain.

All Day TA

At Toronto Rotman, An AI Tool Is Changing How Teachers Teach — And Helping Students Learn Better, Too

BY: MEGHAN MARRIN ON FEBRUARY 06, 2025 | 775 VIEWS

Two **Toronto Rotman School of Management** professors have launched an AI teaching assistant that is already changing not only the way professors teach at Canada’s premier business school, but how their colleagues at other top schools teach, too.

Business schools ease their resistance to AI

Despite fears over the threat to traditional learning, about 100 faculties use Toronto Rotman’s teaching assistant chatbot

Introducing All Day TA

My new venture designed to bring AI responsibly into college education

 JOSHUA GANS
DEC 13, 2024

Share

This is an exciting day. For most of the past two years, my Rotman colleague Kevin Bryan and I have been experimenting with using generative AI to improve our students' education. What has emerged from that is an AI teaching system that takes a professor's content and creates a way for students to ask questions about their course and get reliable and informative answers all day, every day. We were so happy with the results that we bit the bullet, put up our own money and time, employed some real people and launched our own AI startup called All Day TA.

Some Examples

What are Professor Michael Khan's 3 P's of Success?

Professor Michael Khan's 3 P's of Success are Planning, Preparation, and Perseverance. 1

What's the difference between managing people and managing operations?

Managing people involves human resource management, while managing operations focuses on the processes of marketing goods and services. 1 All managers need to understand both, among other areas, to succeed .

who should i reach out to if i have questions about the course?

For miscellaneous issues, you should contact the RSM100 Team at rsm100@utoronto.ca. 1 The Team will then escalate queries to the instructor as needed. For questions about the Professional Skills Modules, email rotmancommerce.cps@utoronto.ca. For program related issues and missed tests, contact Rotman Commerce Academic Services.

An Important Message on Academic Conduct

If you ever *considering* cheating, if you're *tempted* to cheat, if you have *cheated in the past* & see this as the way to get through *difficult times*... I have very simple advice for you...

JUST DON'T DO IT. The consequences *will be* CATASTROPHIC.

Our TAs will be supervising Proctor U assessments in real time

The Online Community

- This is the place where information is posted by the Instructors & Course Administrator – you should plan to check it regularly
- I will post full PowerPoint presentations **AFTER** the class NOT BEFORE
- I will not cover each slide in depth – some are for self study or reference purposes

Getting additional help

- Contact or visit the course administrator, or visit us during office hours – visit early if you need extra help, not just before the test
- Consider organizing informal study groups with other students in the course
 - We will not be facilitating these – an optional tool
- See Quercus for office hour information

Getting Additional Help

- Tutor Ocean
 - Connect with your very own tutor for Rotman Commerce Courses
- Academic Services
 - You have access to a full range of academic supports to help you succeed in your studies
- Career Services
 - They can help you develop tools and skills that will help you make the most of your education
- RC CPS Writing Centre
 - You can book an individual or group appointment with a writing or presentation coach
- FLC Mentors
 - Connect with upper year students who have been in your shoes

The challenges of this course

1. VERY large classes...

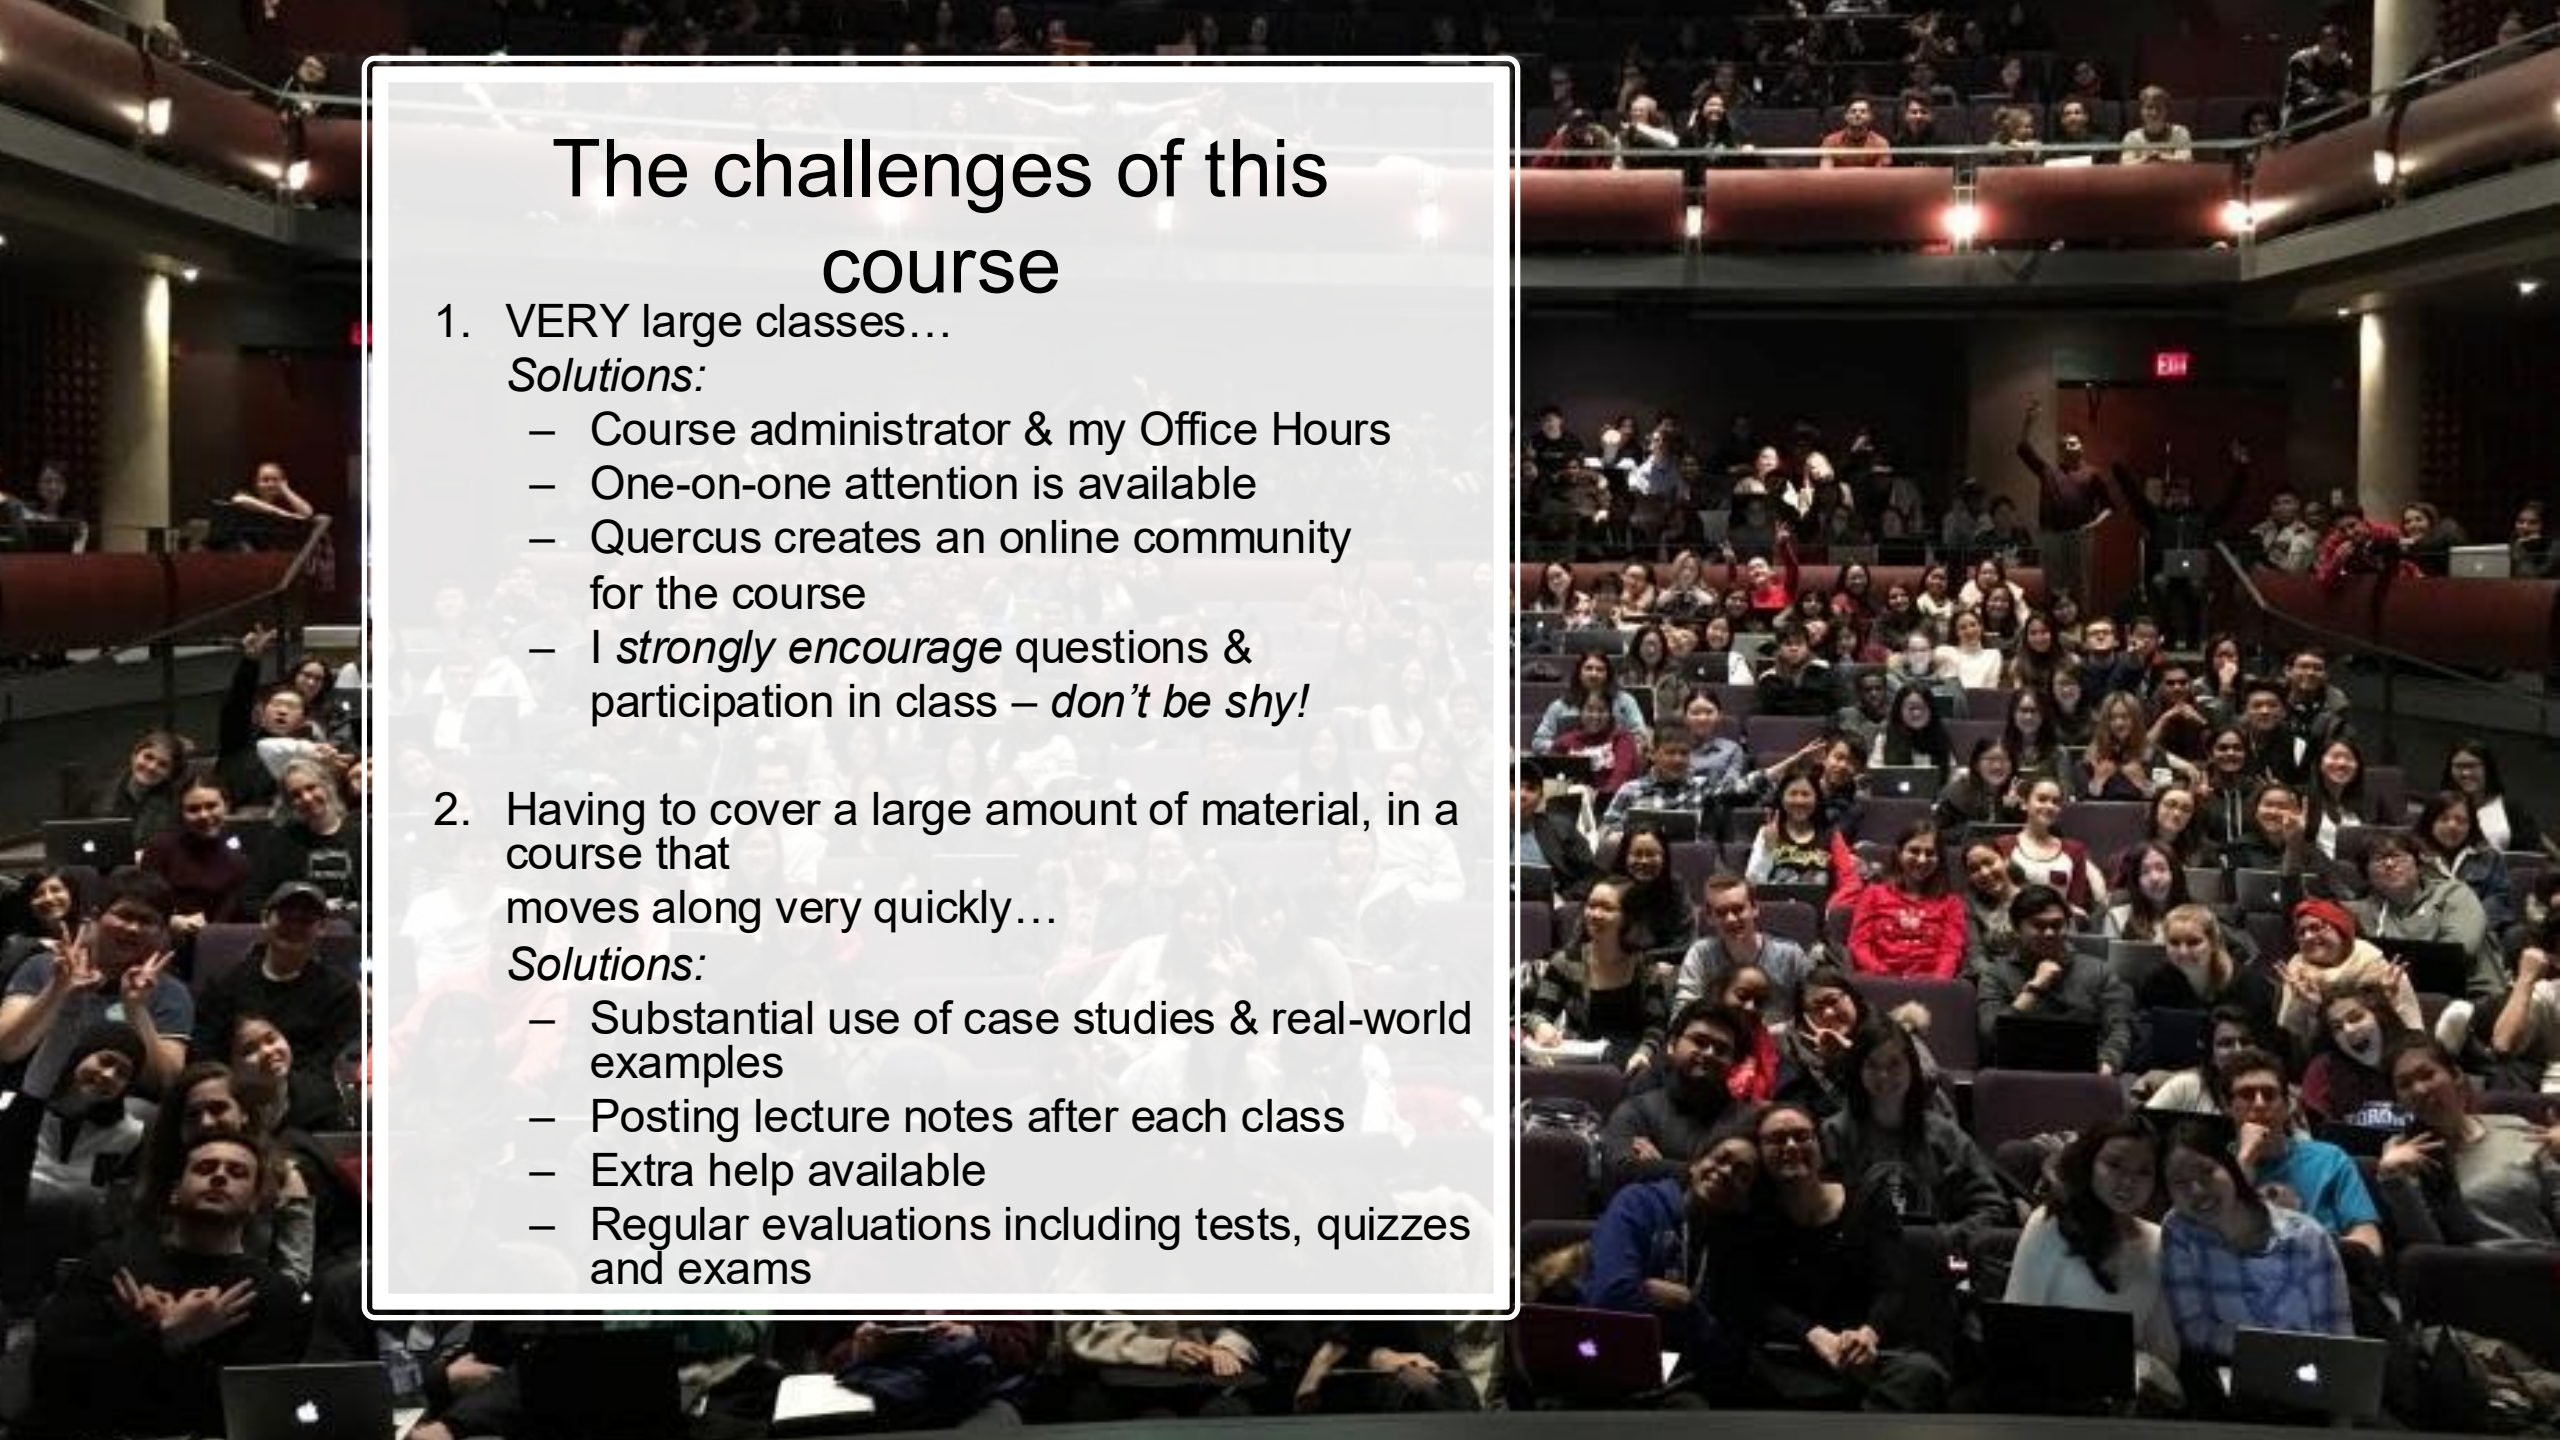

Solutions:

- Course administrator & my Office Hours
- One-on-one attention is available
- Quercus creates an online community for the course
- I *strongly encourage* questions & participation in class – *don't be shy!*

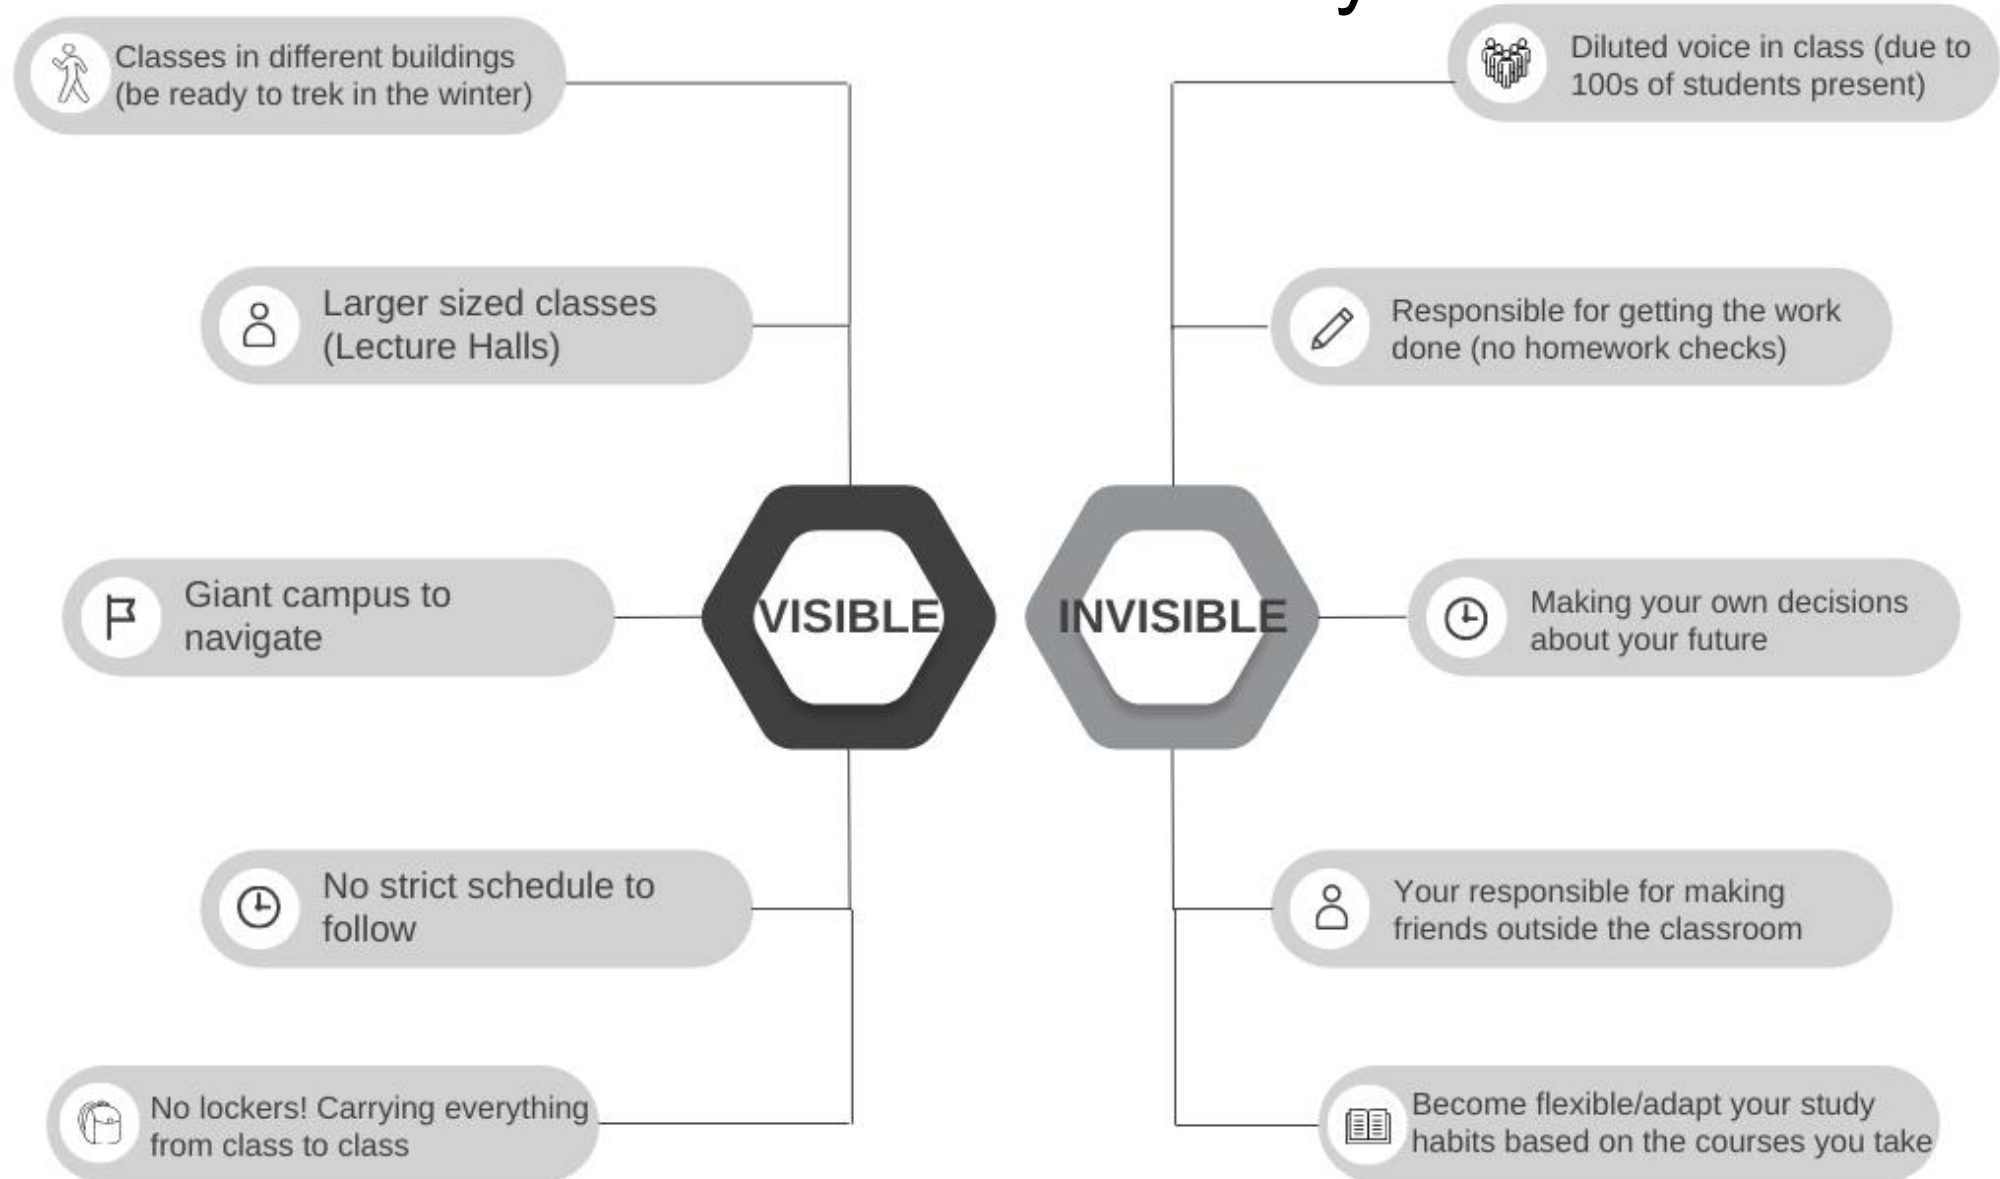

2. Having to cover a large amount of material, in a course that moves along very quickly...

Solutions:

- Substantial use of case studies & real-world examples
- Posting lecture notes after each class
- Extra help available
- Regular evaluations including tests, quizzes and exams

Visible and Invisible Differences Between High School & University

Academic Priorities

1. The marks you receive are not a reflection of your worth

- Receiving 60s-70s on an assignment/test is normal to experience
- Do the work and try your best

2. Success is not measured only by a grade

- You will learn and develop skills by participating in the classroom and co-curricular activities

3. You will learn and adapt as you navigate University

- The transition from high school to university is challenging! Adapting to university life will take time

4. If find yourself struggling, seek help!

- Talk to your academic advisors
- Go to office hours, study with friends, tutor ocean, economics centre, etc.

Introduction to Commerce

What is this course about?

- “Introduction to Management”
- Managing **people** (human resource management), managing **money** (finance), managing the **processes of marketing** goods and services, managing **operations**, **analyzing** the environment, **planning** for the future
 - These are all areas of considerable specialization - yet all managers need to understand the basics
- Some of these areas will become **key** to your success as you progress in your careers

What else is this course about?

- This course marks the beginning of an educational process in management – introduction to some of the theories, professional skills, and practices of “organizations”
- University studies in management – an **academic environment** as well as “professional business training”
 - Making Choices – the decision to simply “chase marks” while at University, OR to *learn, change* and *develop* – you must make the decision

Why study business/ management?

- Many of you will ultimately work for **businesses** in management functions; some will work for businesses which you own
 - Others will **analyze** businesses – financial/ investment analysis, business journalism
- Yet others will manage – **people, information, processes**... but outside for-profit business – government, not-for-profit organizations
- Difficult to know what **careers** will be like in the future, given the pace of change in the economy & society
 - Key question to ask yourselves: What **knowledge & skills** can be acquired over next 4 years to create *personal & professional capabilities that will last*?

Questions?

Appendix

Expectations & commitments

Our expectations of you:

No talking in class – disruptions will be dealt with on a ZERO TOLERANCE basis

- Please do not dangle your legs over the seat in front of you, conduct 'seat-drumming' or otherwise **irritate your neighbours!**
- Please **turn-off cell-phones** and do not allow them to ring during class
- Never, ever listen to your smartphone during a lecture!

Expectations & commitments – cont'd.

- **Arrive on-time & avoid early departures** – always speak with me before class if you must depart early
- **Preparation** – please ensure that you have read all the required readings for each class

Expectations & commitments – cont'd.

- **Participation** – answering instructors' questions, asking questions of us is very important to the success of this course

- **Beverages** in class are acceptable – but please **do not eat** food!

Expectations & commitments – Laptops in Lectures...

- Using your **laptop** to update your status on **Facebook**, play **Solitaire**, or otherwise surf the net are unacceptable activities during a university lecture, and will be treated as **disruptive behaviour** when detected
- Please do NOT use your computers/ mobile devices in class EXCEPT for taking **notes on the lecture** or **participating on polls**

Expectations & commitments – cont'd.

My commitments to you:

- To create a **positive learning environment** throughout the course
 - To evaluate you **rigorously** but **fairly**
- To provide **extra assistance** to you if & when necessary
 - To provide very good **student services** – quality materials, instruction & personalized support; reasonable turnarounds on returned tests
